
THE FALMOUTH CUTTER

Volume 1 Issue 1

August 1994

Notes from the Editors...

Reading through the past newsletter, we were very impressed with the wealth of information at hand. It seems that Falmouth Cutter owners know a great deal about their boats in particular and about sailing in general. Sharing this information is the whole purpose of the newsletter and we hope to learn about your plans, projects, and philosophies.

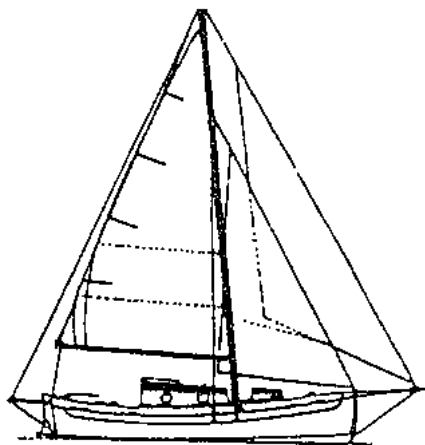

One of the projects we would like to pursue is a photo book of Falmouth Cutters. These wonderful boats are as personal and different as the people who own them, so we hope from time to time you will send photos, inside and out, and we will start a book.

~~~

## Two Knock Downs...

**M**ariko FC # 9 with Michael and Helen Meier aboard, made her way up the coast from Oregon to Port Townsend, WA in May and is now moored at Lake Union Landing in Seattle. The two

knock downs were just part of an adventurous trip that saw 4 days of waiting at the mouth of the Columbia River for a smooth crossing. The forecasted "light

and variable" turned southerly within 24 hours and Mariko found herself in giant following seas and winds to 35 knots. The sea gods smiled however, and rewarded Mariko and crew with a wonderful stay in La Push.

Upon reaching Port Townsend, they were greeted by *Seraffyn's* new owner, Tom Sargent and Duane Madinger aboard *Brevity*, FC #14 which we understand has

a new paint job that looks like a million dollars!

~~~

Speaking of New Owners...

Welcome to Ogden Booke who bought Larry Hipple's *Wakeena* and renamed her *Dazzler*. He comments on the lack of weather helm and accounts for this by the sail having no roach in the leech. Ogden is a retired yacht designer and has offered his expertise to anyone who has technical problems with their boats. Look for his address in the updated address list.

Gray and Susan Multer of Arkport, NY are the proud new owners of *The Jolly Dolphin*. We had the pleasure of meeting Gray when he came out to California on a Falmouth Cutter "finding" trip and he sailed with us aboard *Xtasea*. Gray is a retired professor of oceanography who has spent much time in the Caribbean sailing and researching coral reefs.

~~~

## Iowa to Hopetown...

The day Judge Leo Oxberger retired was the day he left Des Moines with *Ferial* FC #25 in tow bound for the Bahamas where he stayed until May 1st. Then he turned around and retraced his route back to Iowa. The trip must have been worth it because he plans to repeat it in December '94. He is looking for an experienced sailor to make the trip from Florida to the Abacos with him. Contact him at the location listed on the address list.

~~~~

Where in the World???

Puffin FC #23 was seen by Leo Oxberger in Marsh Harbour, Abacos in May '94. The Meiers received a letter from Mary White aboard *Sapo* FC #10 in May of 1993. Has anyone heard from her since then? The last location we had for Johnny Ramos and Hay Chihuahua NS #7 was the Sea of Cortez. Does anyone know of his whereabouts now? Gregg McDonald of *Siddhartha* FC #6 flew to New Zealand and the South Pacific last year (to check out cruising ports). Like many of us who live near cold water, he dreams of "floating in warm water" and says he wouldn't even have to hoist a sail.

For Sale...

Hokje FC #18 by Don Stadt at 13339 Sproule Ave, Sylmar, CA
Tel# 818-367-1457

1981 Falmouth Cutter, Hull # unknown. Broker. 619-297-1000

1979 Falmouth Cutter. Hull# unknown. \$18,000 firm. Call 310-301-9499

Mijita FC #5. Call 714-733-9008

Bristol/Dickenson diesel oven/range and custom fuel tank. Like new condition. We're open to offers. John Lawrence at 714-263-8865 and leave message.

Questions for our Readers...

George Ceolla now has 10 coats of varnish on *Anne Marie* NS #2007. What a sight she must be! We want to know how the varnish will be maintained on your cruise (slated for '95-96) in the Sea of Cortez. Our *Xtasea* also has much brightwork and we too plan to cruise south and we wonder if we should remove the varnish before going. (Thanks to George, also, for the postage and supplies money he tucked into his letter).

Who out there has done extensive cruising with an outboard? Any tips? We are particularly interested in attachment methods and the stability of the engine when in big seas.

In Vane...

Mary and Alan Spears aboard *Coconutz* FC #29 had high words of praise for the Ratcliff Vane as did Mariko's Michael and Helen Meier. Both said the vane performed flawlessly and in any wind.

Although we haven't heard a discouraging word on these vanes, we have run across another vane that was designed by Larry Pardey specifically for the Bristol Channel Cutter and the Falmouth Cutter that incorporates his unique and simple drive system and clutch assembly. It has a reefable sail and touch sensitive trim tab for sailing in any condition. For more information on this vane, "*The Freehand System*", contact Mike Anderson at 788 W. 16th St., Costa Mesa, CA 92627 or call him at 714-642-3844.

~~~~

~~~~

Well Falmouth Friends, this concludes our first addition for 1994. We're not sure how many times a year we can do this, but we think two times will do it. Please let us know what, where, and how your plans and projects are going.

Write to us at 27075 Cabot Road, Laguna Hills, CA 92653 and if anyone is passing through Dana Point, please give us a call. Our tel# is on the address list.

Fair winds...
